Notes:

When a result was below method detection one half the detection limit was used

GW = well graded gravel, fine to coarse gravel
GP =poorly graded gravel
GM = silty gravel
GC = clayey gravel
SW = well graded sand, fine to coarse sand
SP = poorly-graded sand
SM = silty sand
SC = clayey sand
ML = silt
CL = clay
OL = organic silt
#N/A = Sample location was not provided

Notes:

When a result was below method detection one half the detection limit was used

GW = well graded gravel, fine to coarse gravel
GP =poorly graded gravel
GM = silty gravel
GC = clayey gravel
SW = well graded sand, fine to coarse sand
SP = poorly-graded sand
SM = silty sand
SC = clayey sand
ML = silt
CL = clay
OL = organic silt
#N/A = Sample location was not provided

Notes:

When a result was below method detection one half the detection limit was used

GW = well graded gravel, fine to coarse gravel
GP =poorly graded gravel
GM = silty gravel
GC = clayey gravel
SW = well graded sand, fine to coarse sand
SP = poorly-graded sand
SM = silty sand
SC = clayey sand
ML = silt
CL = clay
OL = organic silt
#N/A = Sample location was not provided

Notes:

When a result was below method detection one half the detection limit was used

GW = well graded gravel, fine to coarse gravel
GP =poorly graded gravel
GM = silty gravel
GC = clayey gravel
SW = well graded sand, fine to coarse sand
SP = poorly-graded sand
SM = silty sand
SC = clayey sand
ML = silt
CL = clay
OL = organic silt
#N/A = Sample location was not provided

Notes:

When a result was below method detection one half the detection limit was used

GW = well graded gravel, fine to coarse gravel
GP =poorly graded gravel
GM = silty gravel
GC = clayey gravel
SW = well graded sand, fine to coarse sand
SP = poorly-graded sand
SM = silty sand
SC = clayey sand
ML = silt
CL = clay
OL = organic silt
#N/A = Sample location was not provided

Appendix 7-1. Static Test Results for Non-deposit Samples - Data

Notes:

When a result was below method detection one half the detection limit was used

GW = well graded gravel, fine to coarse gravel
GP =poorly graded gravel
GM = silty gravel
GC = clayey gravel
SW = well graded sand, fine to coarse sand
SP = poorly-graded sand
SM = silty sand
SC = clayey sand
ML = silt
CL = clay
OL = organic silt
#N/A = Sample location was not provided
